

NOTICE TO PARENTS REGARDING RECREATIONAL SWIMMING

At Camp Riverwood, recreational swimming has always been an integral part of the camp program. We wanted to inform our camp families that the swimming pool located onsite at Petticoat Creek will be closed for summer 2010.

As a result, Camp Riverwood has made alternate arrangements to ensure that campers are still able to enjoy swimming. Campers that are currently in **Grade 1 and older** will enjoy recreational swimming two times each week. We have leased the indoor pool at Buckler Aquatics, which is located within minutes from the camp. The facility will NOT be open to the public when used by the camp. Certified lifeguards provided by Buckler Aquatics will supervise campers. Campers will also be escorted and supervised by Riverwood staff.

Campers that are currently in **nursery, junior kindergarten and senior kindergarten** will be able to enjoy the Children's splash pad play area, park facilities and sandy beach conveniently located at Frenchman's Bay. Campers will be escorted and supervised by Camp Riverwood staff and will attend at the splash pad play area two times each week.

We will be notifying parents closer to the start of camp, which days specifically your child(ren) will be going swimming or to the splash pad play area.

If you have any questions regarding the alternate swimming and splash pad play area arrangements, please do not hesitate to contact Lori at the camp office.
